CLASSIC II™ SERVICE BODIES

Spacemaker® model shown with the C2-50 options package

Expect more standard features and more exclusive options with the Classic II™!

Manufactured With Confidence

The service body that leads the industry

- **PATENTED** hidden hinges
- **EXCLUSIVE** standard features and option packages
- **LEGENDARY** quality and durability
- **TIMELESS** design, maximized for efficiency

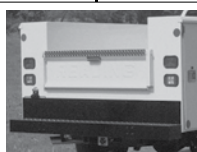

There may be other service bodies, but there's

The Classic II offers an unbeatable combination of standard features, useful options, and the know-how of over 50 years of refinement. This service body is designed for efficiency today, and built to last for tomorrow.

A40-A60 Coating Weight Pressed Diamond Floor Plate Steel and Tailgate Inner Panel
Industry Exclusive A40-A60 Coating Weight Steel diamond surface provides additional corrosion protection & better traction. Patent Pending

Slam Action Tailgate with a polished stainless steel handle and convenient pickup-style design. Equipped with rugged double-panel construction and durable stainless steel hardware.

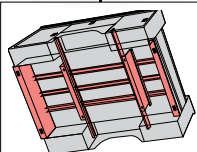

Poached Anti-Slip Surface Bumper
Poached design provides slip resistant step surface.

Modern Rectangular Tail Lights
Provides modern look and are leak resistant.

Removable Stainless Steel Tailgate Knee Brace
Allows the tailgate to swing down completely.

Rugged Understructure
Fully unitized welding, with U-beam girders braced and reinforced at all critical points. Acrylic E-coat primed and coated with a tough water-based undercoating that meets all environmental regulations.

only one Classic II™.

Manufactured With Confidence

Spacemaker model shown with available options

The C2-50 Options Package

This Classic II is equipped with the C2-50 Options Package, a group of our most popular and most exclusive options. The C2-50 Options Package includes:

Latch-Matic® remote locking system with audible alarm

Bright finish aluminum treadplate guards on front body panels and on top of tailgate

Compartment lighting system (includes cargo bed light)

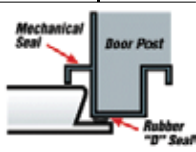

Extend-A-Shelf™ drawers with grab handles

Individual items from this package can be purchased separately

Heavy Duty Compartment Doors

18 Gauge outer door skin with double-paneled construction with internal reinforcement that makes this door the thickest and strongest door in the industry.

Exclusive Dual-Pro® Seal System

The patented design increases clear door openings in every compartment of the body. The large automotive quality bubble type seal and mechanical seal provide a dual line of defense against weather.

Patented Hidden Hinges

Industry exclusive overlapping door construction resists forcible entry. The robust and concealed hinge design provides protection against corrosion and does not require frequent lubrication or maintenance. Fully adjustable and easily replaced without damaging body or door.

Complete stainless Steel Rotary Locks

Attractive appearance with no exposed fasteners and rust resistant. Features a double bolted high quality locking cylinder, adjustable striker pins and an O-ring seal to prevent water intrusion.

Nitrogen Strut Door Holders

All vertical compartment doors are equipped with nitrogen strut door holders where the internal dampeners control the opening and closing.

Aluma-Fill®

Aluminum fuel fill receptacle protects the body from accidental nicks and scratches.

Latch-Matic® with optional audible alarm system

- One touch simultaneously locks or unlocks all compartments on the body
- Two high quality key fob transmitters with 25 ft. range
- Optional audible alarm is enabled by locking doors with the key fob transmitter
- Proven, automotive quality components with concealed wiring and hardware
- Compartment doors can be locked individually with keys (provided)
- Three year limited warranty on parts and service

Compartment lighting system

- Works in conjunction with the Latch-Matic system
- Lights are activated when compartment doors are unlocked and go off when doors are locked
- Programmed to go off automatically after 10 minutes
- Lights feature impact resistant Lexan lenses
- Additional light for cargo bed is also available

DRAWER UNITS

Extend-A-Shelf™

- Most economical compartment drawer system
- Three drawers with *patented* grab handles which permit easy one-handed operation and help secure drawers when compartment door is closed
- Shelves operate on 250 lb. capacity ball bearings

E-Z Slide

- Moderately priced compartment drawer system
- Smooth operating 250 lb. capacity full extension ball bearing slides
- Equipped with three drawers (single drawer models are available for horizontal compartments)
- Also available as a stand-alone 5-drawer module

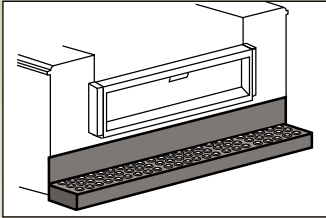

Grip n' Glide

- Competitively priced compartment drawer system
- 250 lb. capacity drawers with full extension ball bearing slides
- Ergonomically designed grips provide single hand "grab & pull" operation of drawers
- Equipped with three drawers

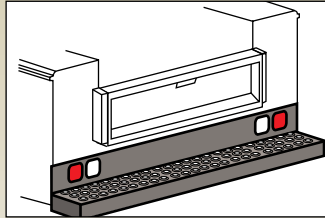

Reading Bumper Options

Reading Bumpers are constructed of heavy-duty A40-A60 coating weight steel and are protected by acrylic E-Coat priming. They are offered in a wide array of styles and feature deck plate, safety step, or all-weather anti-slip surfaces.

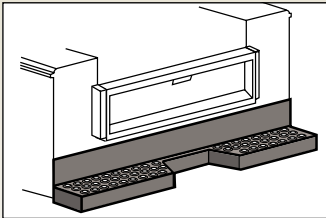

Pooched anti-slip bumper

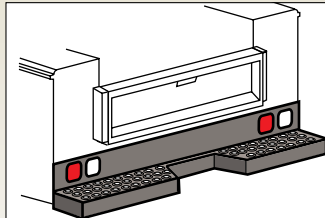

Lighted pooched anti-slip bumper

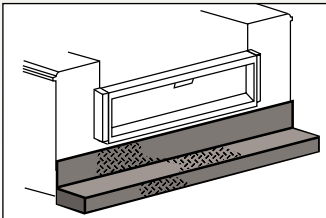

Pooched anti-slip bumper with recess

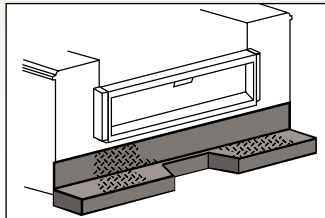

Lighted pooched anti-slip bumper with recess

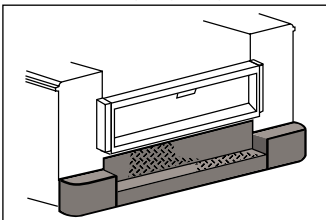

Deck plate step bumper

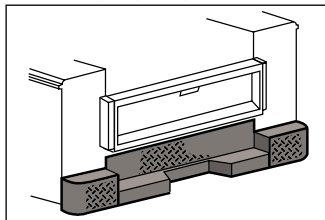

Deck plate step bumper with recess

Safety step bumper

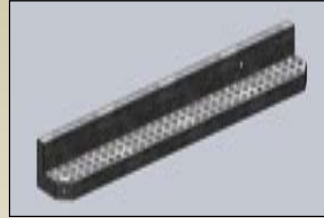

Safety step bumper with recess

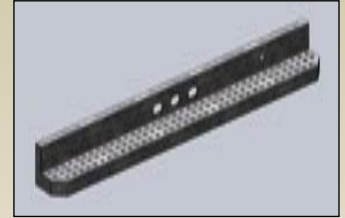

Frame Mount Bumpers with Pooched Anti-Slip Surface

Available only on certain models.

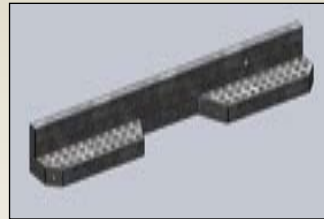

Single Wheel Bumper with L.E.D. lights

Dual Wheel Bumper with L.E.D. lights

Single Wheel Recessed Bumper with L.E.D. lights

Dual Wheel Recessed Bumper with L.E.D. Lights

Powder Coating

- Polyester powder is sprayed on the body, then melted to form a highly durable white finish (other colors available)
- Resistant to corrosion, chemicals, humidity, scratches, chips, and impact
- Brighter finish
- Tolerant of UV exposure

Rhino Linings® Tuff Stuff®

- Available as a factory-installed option
- Offers watertight and airtight truck bed protection
- Prohibits rust, corrosion, and surface abrasion while providing a slip-resistant surface
- 1/8" Thick graphite gray coating application is very resistant to damage from impact

Standard Service Bodies

- For single and dual wheel configurations
- Available in 78", 98", 108", and 132" sizes
- Can be ordered with C2-50 Options Package (see opening spread)

Standard service body – 108SW ("A" side shown) with recessed tail lights and optional pooched anti-slip bumper

Spacemaker® Service Bodies

- Feature top-opening compartments which provide 15% more storage space
- New re-designed lids are reinforced and feature two pneumatic props and rotary catches with push-button release. This design permits easy one-handed closure from either end
- Available in same configurations and sizes as standard bodies
- Can be ordered with C2-50 Options Package (see opening spread) or with the C2-50A Options Package which features bright finish aluminum treadplate lids for Spacemaker compartments

Low Profile Service Bodies

- Body is 5" lower than standard bodies for better visibility
- Available in same configurations and sizes as standard bodies
- Spacemaker style also available
- Can be ordered with C2-50 Options Package (see opening spread) or with the C2-50A Options Package which features bright finish aluminum treadplate lids for Spacemaker compartments

Spacemaker low profile service body SLP108DW ("B" side shown) Model shown features Spacemaker compartments with recessed tail lights, optional removable overhead ladder rack, and deck plate step bumper with recess

ENCLOSURES FOR CLASSIC II™ BODIES

Need a service body with a bit more storage or perhaps an enclosed work space? Reading enclosed bodies are the answer. Equipped with spacious outside storage compartments and featuring a completely enclosed cargo and work area, Reading enclosed bodies offer the best of both worlds.

Panel Bodies

- Available in heights of 50", 60" and 72" for most models
- Rear doors close and lock securely with 2-point locking system
- Available in galvanized steel or in fuel-saving aluminum
- Protected by acrylic E-Coat priming
- Enclosed area has three full length shelves on each side (four shelves on 72 series) to provide carrying space for long-handled tools and equipment

**108DW panel body
50 series** ("B" side shown)
With optional recessed safety step bumper, and recessed tail lights.

**108DW tapered panel body
60 series** ("B" side shown)
With recessed tail lights and optional pooched anti-slip bumper

Spacemaster Bodies

- Available in heights of 48" and 57"
- Enclosed work area, plus four lift-up doors
 - Upper roadside compartments permit direct access from the interior
 - Upper exterior doors feature pneumatic struts and T-handle locks
- Available in galvanized steel or in fuel-saving aluminum
- Protected by acrylic E-Coat priming

**108DW Spacemaster Body
57 series** ("A" side shown) *With recessed tail lights and optional recessed safety step bumper*

Every Classic II model carries the Reading exclusive 6-year warranty.

ADDITIONAL OPTIONS

L.E.D. LIGHTING

- Bright, long lasting L.E.D. lights are available

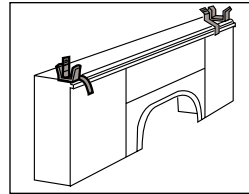

MASTER LOCKING

- Steel slide bar simultaneously locks all of the compartment doors on a service body's side
- Spring loaded for easy manual operation

ALUMA-CHOCK®

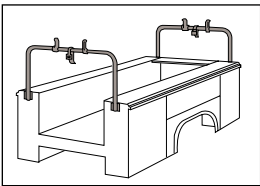

- Aluminum chock block holders
- Can be ordered as single or dual per body side
- Protects the body from nicks and scratches from repeated insertion and removal of chock blocks

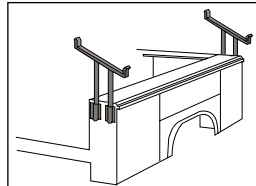

PIPE VISE RACK

- Rugged steel construction
- Holds pipe sections securely in place

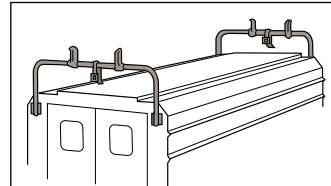

STEEL LADDER RACKS

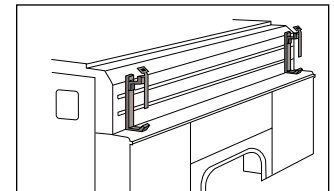

Removable overhead ladder rack

Removable side mount ladder rack (angular rack shown, flat rack also available)

Removable overhead ladder rack for panel body

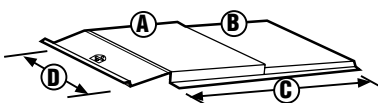

Side mount ladder rack for panel body

STEEL SLIDING TOPS

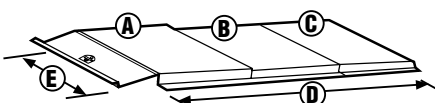

- Available in two or three sections (depending on body size)
- Slides on full-length galvanized steel tracks
- Secured with a two-point positive action stainless steel T-handle lock

MATERIAL RACK

- Heavy gauge square tubing
- Constructed from 1/8" wall thickness, 1-1/2" x 1-1/2" and 2" x 2" high-strength steel square tubing
- Optional 11" extension available for taller cabs
- Universally designed rack fits single wheel and dual wheel service bodies from 98" up to and including 132" lengths
- High gloss black powder coat finish
- 1200 lb. Capacity

* Payload will effect vehicle handling
** Cannot be used with a sliding top
